

# Nora Vale — investigative reporter

## What everyone knows

You are writing about the preview's donors and the Rogers legend.

## What only you know

At 8:31 p.m. a source texted: 'Crane took the flat black portfolio past the pump door. Ask who rents Loom House 4C.' You withheld the message because the source works for Crane's appraisal firm. At 8:44 p.m. you saw Crane return without the portfolio and wipe mineral residue from his right cuff.

## Your private objective

Protect the source unless disclosure is necessary to locate Quill.

## Your opening move

Ask for a minute-by-minute account from 8:20 to 9:10 p.m.

## Leverage

Bell can verify the historical claim; Voss can verify the packet; Crane wants your story delayed.

## Cost of silence

If you conceal the corridor observation through the rescue phase, the host may reveal the source message as recovery evidence.
