SIDEREAL STANDARD CORRECTION

Vale Observatory / Time Service sheet S-2-1937-016

Clock: Sidereal standard S-2 Date: 16 January 1937

Comparison: U.S. Naval Observatory radio time / 18:00 E.S.T.

Comparison prepared: T. ROOK

Measured result: S-2 FAST 56.8 SEC.

Observation: local-series plate V-1937-0417

Mid-exposure clock reading 05 48 56.8

Convention: add the signed correction algebraically; a fast standard requires a minus sign.

CORRECTION ENTERED BY F. MERCER ... +56.8 seconds

Reduction destination: desk sheet R-17 / plate ledger IV-117

Mercer signature:

A handwritten signature in cursive script, appearing to read 'F. Mercer', is written below the 'Mercer signature:' label.

RADIO RATE NOTEBOOK

Vale Observatory / Time Book II leaf 36 / receiver RCA AR-60

DATE / EST	AUTHORITY	CLOCK	FAST	RATE	OP.
JAN 14 18:00	U.S.N.O.	S-2	56.70 S	+0.05 S/D	T.R.
JAN 15 18:00	U.S.N.O.	S-2	56.75 S	+0.05 S/D	T.R.
JAN 16 18:00	U.S.N.O.	S-2	56.80 S	+0.05 S/D	T.R.

S-2 fast; subtract 56.8 s

U.S.N.O. signal sets error; daily difference sets rate

RA - HA - LST REDUCTION

Vale Observatory / Reduction desk sheet R-17 / 17 January 1937

Rule: LOCAL SIDEREAL TIME = RIGHT ASCENSION + HOUR ANGLE

DESK RULE EXAMPLE

R.A. 04 10 00.0 + H.A. 00 20 00.0 W = L.S.T. 04 30 00.0

PLATE V-1937-0417

R.A. 05 37 20.0 + H.A. +00 10 40.0 W = L.S.T. 05 48 00.0

Raw S-2 contacts: 05 48 11.8 / 05 49 41.8

Raw S-2 midpoint: 05 48 56.8

Required signed correction: -56.8 seconds

Corrected contacts: 05 47 15.0 / 05 48 45.0

Check: 05 48 56.8 plus (-56.8) = 05 48 00.0

CIVIL TIE - GATEHOUSE CHRONOMETER CARD L-2

Sign separation: 113.6 sidereal sec = 113.3 mean-solar sec

Honest (-) plate close: 10:02:14.0 P.M. E.S.T.

Posted (+) plate close: 10:04:07.3 P.M. E.S.T.

Library entry register: F. MERCER / 10:04 P.M. E.S.T.

CARBON LETTER - TRUSTEES

Vale Observatory / retained desk carbon / draft 2 / 16 January 1937

From: Dr. Alistair Vale, Director

Draft - not issued

To the Trustees and the Astronomical Community:

The first identification on plate V-1911-0086 was Ruth Bell's.

I published the result under my name and permitted the record to stand.

Tonight I intend to restore her credit and submit the endowment books to an independent audit. The observatory cannot ask reality to remember only those facts that preserve its founder.
